

Product description

Code lock module as input unit for access control and for making door calls.

Depending on the functional scope of the access control and the intercom system, further devices are required for management and control functions.

- LED as status indicator, only for Vario (external potential-free contact)
- Door release button for direct door release via the EC 602-...
- Control functions (e.g. roller shutters)

Specifications

Operating voltage:	12 V AC
Operating current:	max. 140 mA
Protection system:	IP 54
Ambient temperature:	-20 °C to +55 °C
Dimensions (mm) W x H x D:	99 x 99 x 27
