
Bus licence for telephony connection BLT 250-0

Product description

Application licence for enabling an external connecting channel for VoIP telephony between an VoIP telephone system (SIP client/SIP trunk) and the Smart Gateway. One application licence BLT 250-0 can be imported per Smart Gateway. One free user licence BLC 250-0 is additionally required for the integration of a VoIP telephone system.

The following conditions apply to the use of an application licence BLT 250-0:
• Ready-to-use Smart Gateway with firmware from V 1.3.0
• Pre-configured, ready-to-use VoIP telephony connection (SIP client/SIP trunk)
• Free user licence (BLC 250-0 bus licence client) for one IP user
The licence is linked to the hardware. If a Smart Gateway fails, Siedle transfers all licences purchased within the last 2 years free of charge to an identical substitute device (investment protection).

Third-party devices are subject to authorization by Siedle.

Order notes
Customers outside of Germany can contact one of our international representatives.
To place your order, the MAC address of the Smart Gateway is required.
